Applying for University

Deciding on your university is a pivotal choice, so it's crucial you make a well-informed decision.

Our Applying for University course will help you navigate the different choices on offer to help you make the right decisions for your university application. We will explore your strengths and interests to help you narrow down your university and subject choices. Throughout the course you will be aided by expert advice from a former university admissions tutor and hear stories from other students who have gone through this process and have some lessons they want to share.
